SUMMARY

Front-End Engineer who transitioned from Digital Project Manager through self-study and on the job training. Bringing 3 years of front-end development experience and 5+ years of technical project management. Experienced in creating engaging, rich user experiences using HTML, CSS, and Javascript for clients such as the National Basketball Association, The Department of Veterans Affairs, The City of Phoenix, The National Assessment Governing Board, and the Department of Health and Human Services. Known to tackle any development challenge and collaborate with the entire technical team to build amazing products.

SKILLS AND CERTIFICATIONS

<u>PMP Certification</u>	PMI Project Management Professional (PMP) (#2874560) – December 2020
<u>Programming Languages:</u>	HTML, CSS, JavaScript (ES6), SASS/SCSS, Python
<u>Frameworks/ Development Tools:</u>	React, Gatsby, Patternlab, Handlebars.js, Webpack, Node, VSCode, Git, Bitbucket, Github
<u>Accessibility/ Testing:</u>	Sitely, Cypress.js, Browserstack
<u>CMS:</u>	Adobe Experience Manager, Umbraco, Pardot, WordPress, TeamSite, Salesforce Marketing Cloud, Webflow
<u>Visual Design</u>	Figma, Adobe Creative Suite, Open Broadcast Studio, Shotcut, Procreate
<u>Other Skills:</u>	Relationship-minded, Driven, Risk Management Skills, Creativity, Collaboration

PROFESSIONAL EXPERIENCE

Reingold Inc., Alexandria, VA (Remote)

May 2021 – Present

Senior Front-End Developer, Jan 2024 – Present

- Collaborated with engineers, designers and managers to develop the front-end for 15+ medium-to-large scope digital experiences; performed quality assurance to report bugs before promotion to production
- Designed the front-end environment for the redesign of Phoenix.gov; made use of Node.js and Webpack to automate the build process. Constructed reusable components to be used across the entire site to make maintenance compartmentalized
- Implemented a headless CMS experience using AEM Edge Delivery Service and a custom Design System based on USWDS for the State of Nebraska to streamline the authoring and end-user experience
- Performed quality assurance on Phoenix.gov to assure cross-browser functionality and 508 Compliance (A and AA accessibility) so that all users of the site have a seamless experience
- Directed prototyping and technical implementation for *NBA Mind Health's* 2024 All-Star "Mind Gym" and Mental Health Month "Join the Mind Health Squad" Quiz; the quiz won both the *dotComm Awards Gold Award* and *NY Digital Awards Gold Award*
- Developed the front-end for *c-sgroup.com*, an e-commerce website using React to provide an efficient and fast experience to the end user; worked with AJAX and a variety of APIs to create the web app

- Contributed to a Gatsby Framework (Next.js alternative) veteran resource locator; used GraphQL to manage data that would generate a personalized experience for the user
- Wrote end-to-end tests using Cypress.js to make sure styling remained consistent during environment upgrade; tests caught multiple issues on staging environment prior to deployment
- Worked across multiple codebases for using git; shipped high-quality, maintainable, and reusable components with documentation to clients post period of performance
- Collaborated with tech leads to create an upgraded front-end environment in Patternlab to simplify building reusable components; refined the Webpack compilation process, configured linters (ESLint and Stylelint), and worked with DevOps to upgrade our Docker builds to fit the new workflow
- Provided feedback to junior developers over the course of the development cycle via code reviews and one-on-one meetings to ensure team growth

Senior Digital Project Manager/ Front-End Developer, June 2022 – Jan 2024

- Demonstrated initiative by balancing work as both a Senior Digital Project Manager and a Front-End Developer; worked both jobs across projects to mitigate the risk of scarce resources

Digital Project Manager, May 2021 – June 2022

- Led agile ceremonies for an average of 5-8 products per week (daily scrum, story pointing, sprint review, sprint planning, client demos, and retrospectives); reported regular project updates to senior staff and client stakeholders to manage risk
- Implemented an incident management system in OpsGenie to monitor server status and send out preventative alerts for a healthcare digital product; lowered after-hours calls by 100% over 3 months

National Gallery of Art, Washington, DC

Conservation Resource Specialist (IT Specialist)

August 2017 – May 2021

- Coordinated a project plan and for the migration of ConservationSpace, an open-source document management system meant to store and manage conservation documentation, to internal cloud servers, cutting upkeep costs by 35%

EDUCATION

Wake Forest University School of Business, Winston-Salem, NC

May 2017

Master of Science in Management, GPA: 3.86, Beta Gamma Sigma

University of North Carolina at Chapel Hill, Chapel Hill, NC

May 2016

Bachelor of Arts in Psychology and Studio Art, Double Major, GPA: 3.93, Graduated with Highest Distinction

Activities and Professional Memberships: Phi Beta Kappa, Division 1 Fencing - Women's Foil
